

## MB MAGNETIC BASE

### The main uses and characteristics

Application : Suitable for fixing on the machine or as the base of the measuring apparatus. Such as the universal mechanical gauge, lever gauge and universal oil pressure gauge etc for combine use.

Features : Have simple turn " ON" and "OFF" switch, with compact size and strong magnetic force. The screw hole is available, but can still make additional machining as the subsidiary base to expand the range of use.

Model	(mm) Shape Size L W H			(mm) Tapped Hole	(kgf) Holding Power	(kg) Net Weight
MB-30A	35	30	35	M5*1.0	30	0.2
MB-50A	40	40	40	M6*1.0	50	0.3
MB-60A	58	50	55	M8*1.25	60	1.0
MB-80A	60	50	55	M8*1.25	80	1.0
MB-100A	73	50	55	M8*1.25	100	1.3
MB-130A	117	50	55	M8*1.25	130	2.0

## MH-50 Magnetic holder hook

### The main uses and characteristics

Features: Inside installed with neodymium magnet, creating strong magnetic force to metal workpieces.

Functions:

1. Well accepted in factories, stores, construction sites, garages and wharves etc.
2. Ideal for both flat and round metal workpieces
3. For hanging cables, air hoses and different kinds of tools etc.
4. On/Off is controlled by a switch, easy and fast operation.

Model	(mm) Dimension	(kg) Net Weight	(kg) Test max pull off force
MH-50	109X76X42	0.33	50
