

# 1-041.09SL Captive Fastener 18.7 SNAP-LINE

For joining of flat metal sheets acc. to Machinery Directive 2006/42EC (captive connection of locking devices)

## Benefits:

- Meets machinery directive 2006/42EC.
- Pushed into the front panel (sheet thickness max. 3 mm) and permanently secured by the U-shaped spring (1.).
- Can be dismantled of the rear panel from the front with the tool for uninstallation 292-0312.83-00000.
- One-piece, tool-less installation.
- Oblong hole possible, for tolerance adjustment.

## Material:

- **Housing and Snap wedges:** zinc die, zinc plated
- **U-shaped spring:** stainless steel AISI 301
- **Screw:** steel, zinc plated

- 2. = Installation
- 3. = Installed
- 4. = Removal

**Removal:** By turning the tool for uninstallation counter clockwise the SNAP wedges are drawn back. The U-shaped spring holds the Fastener captive in the front panel.

The (S) dimension indicates the total thickness of the sheet metal panels.

## Fastener

	Part Number	Clamping range (S)	Captive	Installation type
a)	294-8004.00-00001	11,5 - 11,8 mm	Yes	Tool-less
