

1-043SL Fastener 30x14 SNAP-LINE

Fastener for joining flat metal sheets

Benefits:

- The connection of the sheets is established via a simple clip-in into its cutout.
- The riveted grounding clip assures an electrical connection between the sheets and the fastener itself.
- The teeth of the riveted grounding clip penetrate the painted cutting edge of the cutouts as well.
- By using the tool for uninstallation 292-0311.15 a disassembly from the front is possible.

Material:

- **Housing:** zinc die, black
- **Snap wedges:** sintered steel
- **Grounding clip:** stainless steel

The (S) dimension indicates the total thickness of the sheet metal panels

Fastener

Part Number	Clamping range (S)	Vibration-proof	Grounding	Installation type
