

## 5-131 Window Seals

EPDM

Window seals are used to mount panes, windows, etc. in doors, casings and machine enclosures.

**Material:**

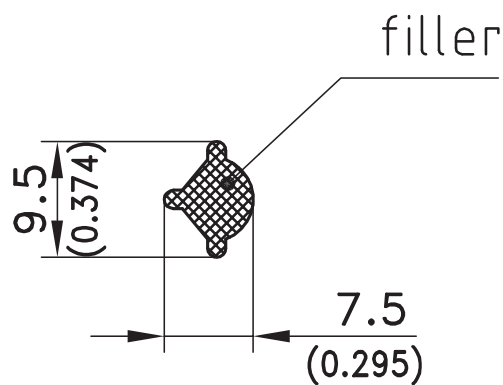

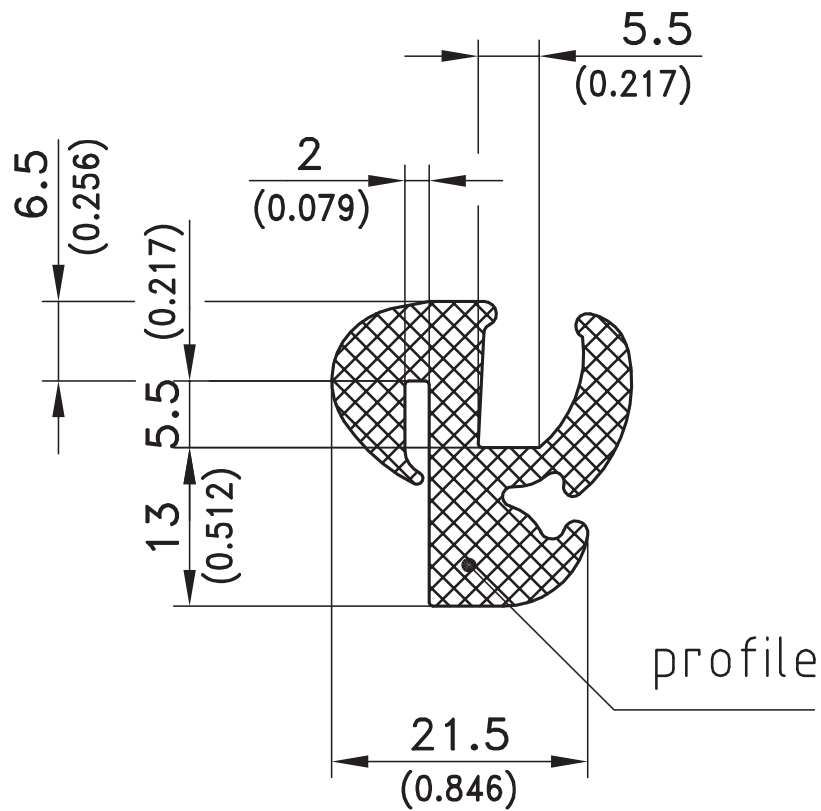

- **Window seals:** EPDM

- The pane is clamped in place with the help of the filler and held flush-mounted in the cutout.

- **The window seal is made of EPDM with excellent weathering and ozone resistance properties.**

DIRAK's EPDM quality is neutral to paints.

- Tolerances: see page 07.07.
